

# St. George's Values

At St. George's, our school values are the foundation of our school; they run through everything that we do in the classroom, playground and our local community.

Our values are based on the Christian Values. We look to teachings from the Bible and the life of Jesus for guidance as we seek to live the values every day. We use the values to drive our whole school and class worship time.

We also use a wide range of stimuli including learning from other religions and inspirational people. The children are immersed in a different value each half term and we encourage them to reflect on the value in depth; to begin to let the values into their heart so that they can support and guide everyone in our school community in the choices we face in life.

They are key to helping our pupils enact our vision statement's call to action:

*Be brave. Be Great Be you.*

*We are fun. We are together.*

Term	Month	Year 1	Year 2
