

St George's School Eco Charter

Be Brave. Be Great. Be you

We are Fun. We are Together.

We, the St George's School Community, will work together to look after our wonderful world.

In school we will:

Use paper carefully - re-using and recycling.

Use electricity sensibly - turning on appliances only when necessary, and remembering to turn them off.

Renew resources responsibly - choosing to re-use and repair where possible.

Use water wisely - we won't leave taps running, water is precious.

Avoid plastic where possible - we want to recycle as much as we can.

Keep our planet looking great - we won't be litter bugs.

Together we can make Great choices.

Together we can make a difference.
